At St Mary's Island, Whitley Bay, Tyne & Wear, NE26 4RS.

Free Entry.

Contributions to Society fundraising nonetheless welcomed.

Stargazing night at St Mary's Lighthouse, 4th March 2015
feedback:

*What a fantastic night we had at the St Mary's Light House.
Can't wait to come back, 10/10".*

Sponsored by North Tyneside Libraries.

Sunderland Astronomical Society will be joining us at St Mary's Lighthouse to view the night sky (weather permitting) on the St Mary's Island.

Powerful telescopes will be available to view the:

- Jupiter and its moons.
- Uranus, seventh planet outward from the sun
- Globular cluster, double cluster M31
- Amazing stellar nursery, the Orion Nebula (M42).
- Andromeda Galaxy (M31).
- Gorgeous open star clusters such as "The Seven Sisters" .

Plus many other wonders of the night sky.

- Suitable for all ages.
- Lots of telescopes of all shapes and sizes.
- Interactive astro presentations with Q&A.
- Expertise & advice from local astronomers.
- Videos and Demonstrations.
- Cafe refreshments available to buy.
- Society merchandise available at society reception desk.
- Bring suitable clothing for the weather.
